The Deliciously Keto Cookbook: 150 Mouth-watering Low-carb, Healthy-fat Ketogenic Recipes For Mains, Sides, Des

Synopsis

The Ketogenic diet is a high-fat, moderate-protein, low-carb diet originally developed to reduce the frequency of seizures in epilepsy patients. More recently, however, it has found a mainstream audience who view it as a real foods-based diet with weight loss and other overall health benefits. By focusing on dietary fat and ketones instead of simple carb-derived glucose as a primary energy source, the body becomes more efficient at burning body fat and is spared the conversion of leftover glucose calories into body fat. The Deliciously Keto Cookbook offers 150 deliciously satisfying recipes for breakfasts, appetizers, snacks, mains, desserts, and sides, all designed to help readers set and reach personal health and weight loss goals. The recipes follow a high fat/low protein/ultra low carb ratio designed to induce readers into a state of nutritional ketosis where they are consistently burning ketones (fat molecules) for energy instead of glucose (carbohydrates). Additionally, readers who have attained health goals and are looking to follow a longer-term maintenance program will benefit from simple modifications for each recipe that enable them to adjust the nutrient ratios to a slightly lower fat and slightly higher carbohydrate ratio. Also included: • Tips and tricks for cooking keto-friendly dishes, eating out on the keto diet, and managing the side effects, including the temporary "keto" flu that accompanies the induction of ketosis. • Helpful modifications that enable readers to modify recipes from a high fat induction phase to a moderate fat maintenance phase.

The recipes are great. I like that many of the recipes are for whole foods and not so much to create elaborate versions of foods you can't really eat anymore. The pictures are nice but there appears to be some mistake throughout the book where half of the pictures are shown twice and then there are no pictures for the other recipes. Just seems like a glitch.

A friend loaned us his copy. Within a week, we gave it back and ordered our own. Some of this stuff is more complicated than we were used to because you have to make some of your own ingredients. Small price to pay for better health.

These recipes are fantastic, simple, and delicious. My family is really enjoying the change of pace this recipe book brought. There's every protein, and every meal. Even desert. The instructions are clear and concise, easy to maneuver in the kitchen. It may be my device but the cooking times seem a little off for the Kindle version. Highly recommend this cookbook, keto or not.

Love the focus on whole foods and natural ingredients. Recipes are practical and can be served to the whole family. I like that each recipe is broken down into ketosis macros. Beautiful photos too.

Havent started my Keto lifestyle yet

Love it

Its a nice read and I've picked up some great pointers.

It was OK but not great. Tried a few of the recipes. Probably won't use it that much. I've been cooking low carb for almost 20 years and there wasn't much new here.
