Customer Reviews

As a person who has not played the piano for over 20 years, i am rebuilding my skills. I can play all the songs in this book without practicing, and the second time i play them, they sound like something. No difficult keys to contend with. There may be one song in here that i have never heard of. Lots of Phantom of the Opera, which is fine. I was a little disappointed in the arrangement of "Memory," which is a little stilted, does not flow like the others do. I would have liked more Cats! A worthy purchase, for sure!

I own a lot of piano books, but this is probably one of my favorites. My 5 year old daughter begs me to play from it all of the time too. The songs are easy enough to play, but not too easy that it might get boring for some. I would really recommend it. Lots of Phantom of the Opera songs, which is pretty much what I end up laying out of it.

I have purchased this twice. One for me one for Mom. It is easily written. I had not played the piano for years but could pick this up and play it. Beautiful.

I'm spending lots of practice spent playing through these nostalgic-inducing melodies.

Easy, but good!

This is my second time to purchase this music. My first copy was so well used over the years it started falling apart. The arrangements are simple but lovely.

All the ALW songs I like and easy format

Really simple and beautiful note book. Large scale, can improvise with the cords. Or just play as it's written. Try it!
