Customer Reviews

The experts at The Princeton Review have been helping students, parents, and educators achieve the best results at every stage of the education process since 1981. The Princeton Review has helped millions succeed on standardized tests, and provides expert advice and instruction to help parents, teachers, students, and schools navigate the complexities of school admission. In addition to classroom courses in over 40 states and 20 countries, The Princeton Review also offers online and school-based courses, one-to-one and small-group tutoring as well as online services in both admission counseling and academic homework help.

Came quick, a lot to cover but everything I need to get my husband's ged

This book is giving my son everything he seriously needs to pass the GED test on the first try. Great book!

Very disappointed that this version requires you to log in online to get answers to the drills in the book. The online version expires too, so...Also, some of the online drills have the wrong answers!

Very easy to use and gets to the point no fluff work.

Very informative.

Could have been excellent. After purchase of the book still a fee to have access to your lessons online. Starting at \$99 or more. No benefit to buy the book. Too costly to claim to wanna help you excel

i bought this for my brother and he still seems stupid

readable
