You May Ask Yourself: An Introduction To Thinking Like A Sociologist

Synopsis

The *You May Ask Yourself* is a textbook that teaches students to think like a sociologist. You May Ask Yourself gives instructors an alternative to the typical textbook by emphasizing the “big ideas” of the discipline, and encouraging students to ask meaningful questions. Conley employs a “non-textbook” strategy of explaining complex concepts through personal examples and storytelling, and integrates coverage of social inequality throughout the text.

“For once, I was actually excited about reading a textbook. It seemed as if the author was talking directly to me at times.” - LaToya, social work major, SUNY Brockport

This product is a scam - DO NOT BUY. Absolute rip-off. I bought this as a digital text book and noticed that even though the ISBN is an exact match to the one required for my class, it only contains half the material that I need.

ITS MISSING 8 CHAPTERS ! IF YOU NEED THIS BOOK FOR COLLEGE THIS IS THE WRONG ONE !!!!

I was satisfied. I just found out that I am also missing chapters!!

When ordering this book I was expecting the whole edition not the 'core edition'. Seeing that the whole book is cost prohibitive I am just going to work with what I have. For a quick start this is a good book and reads well. The seller lead me to believe that this was a complete book in not what was said, but what was not said. All in all for price, quality, and service I am happy.

This is a very engaging book, however there is a helpful online resource that you must have a code to access; which was not included with my new book purchase. Otherwise would've been 5 star. I received it fast and it was in great condition.....just wish I would've known about the code.

Hate the way this book is written, but some very good information and good links for further practice.

Good book and information. I only rented it, but I am thinking of purchasing it because it is good information to have

Nor,ally, textbooks are pretty boring, but this one isn't too bad of a read. This is a requirement for my sociology class.
