## Customer Reviews

I bought the younger edition of this book, The Toddler's Handbook, for my granddaughter two years ago. I was very happy with that book, and I am not disappointed with this one. Like The Toddler's Handbook, this book is jam-packed with different concepts, but they are perfect for kindergarten aged kids. This book asks kids to answer questions

as they go rifle through the pages. Things like less and more, looking for patterns, matching shapes, identifying colors, picking out pictures that rhyme, asking questions about the time of day, week or month, seasons and the weather. I especially like how it encourages kids to help with chores around the house, and gives kids step-by-step instructions on getting ready for school in the morning. I found this book very useful, and recommend it to any kindergarten aged child.
