We just recently used the atlas to get from Berlin to a small town near Warsaw. It showed all the toll booths and rest stops on the freeway. When we took a wrong turn and got on a back road, it was easy to find our true location on the map. For people who still use paper maps, I highly recommend the atlas.

This road map has villages that my ancestral tour required. I recommend it to anyone who wants a detailed map of Poland.

Very helpful. Used it during the trip along with the GPS and it was easy to follow and navigate. Good buy. Also included is a high level map of Europe which I thought was cool and helpful.

Worked out great, needed a detour route while in Poland. GPS is great for those who care to look at a small phone screen. Good old fashion map is worth it's weight in Gold!

Came in very handy as a backup for GPS.

Very good road atlas!

Delivered as promised and very informative

Will help us on our trip there thank you very much!
