Good Complement to Additional MBA Essay Writing Books but would not use as the only resource. Reference this one after you've written a first draft or two to help refine your final version.

This book is exactly what i was looking for. I wanted a brief easy to read book that would give me "power phrases" - phrases that i can customize and reuse to capture the adcom's attention and then help me ease my way in making a strong case to consider my application. This book meets my needs. Before i got this book, i had to read through multiple lengthy "business school" essay books to distill the content to create my own power phrases.

Helped me a lot during my essay preparation for the business school. Should be on the must buy list any MBA applicant...

i didn't use one phrase from this book. but, it gives you an idea of what your competition is thinking and coming up with ideas to tackle you. so take these phrases, make them better and use them if you deem it fit. but i don't recommend copy/pasting anything from here. it's too tacky.

I bought this to supplement my quest for an MBA. The book is compact and concise. It is filled with countless examples of neat and strong "phrases" that would be found in application essays to top business schools. I am giving four stars instead of five because it focuses on sentences instead of whole essays. Nevertheless, I consider it very useful. It should not be the only book to help the aspiring MBA applicant, but should be regarded as a helpful supplement.

One of the best books that really helps to efficiently deal with the application essays.

just fine. fine. helpful. For a home product, for the price, this is quite good. I prefer a heavier product altogether, but I was surprised with the quality considering how inexpensive this product is. Coming from a professional background, I'd say this is a great piece to start with. just buy one for myself,

Of the essay books I have used so far, this definitely rank among the top 5. It is a great book to start writing essay drafts and phrases mentioned in the book make the essay much more refined and strongly aligned with the business language. It is a very good purchase!
