Customer Reviews

This was full of typical small pictures that you could find on the add pictures button on the Microsoft programs. Along with some random seeming pictures pulled off the internet.

This was of pictures only not real designs. The pictures are ok but they are nothing new or exciting. I was hoping for more.

Some nice design ideas in this book. If you really really wanted a tattoo but was blank on designs, then this is your book.

There is absolutely nothing creative about the tattoo designs in this book. It's the same crap you'd see on the wall of a tattoo shop. Please don't get any of this put on your body.
