Let's be honest, for most courses, you don't need the text. This was overkill for my certification. Buy it if you need the reference, but borrow it if you don't.

I love the flip book. It's really all you need.

Nice review of updates to the ACLS guidelines and handy reference for future for those of us who don't run codes every day.

Definitely worth the price; you get ACLS, PALS, BLS and NEWBORN resuscitation handbooks in one pocket size book.

Product was as advertised and was delivered quickly.

great book!! two thumbs up!

Very good experience. Quality and price of the book was top notch.

Good sale
