Customer Reviews

A comprehensive resource written to help you live symptom free from degenerative disease within six months.

Not the seller. Book came timely & damage free. Awful book. Was more of an infomercial; looked up a local spa where her "program" was for sale. Was going to cost \$700 for a month of Candida cleanse. No thanks.

Linda Nelson makes so much sense! It is a perfect explanation of what we need to do (especially as Americans) to recover our health and strengthen our Immune Systems! It is not the easiest thing to do, but the right way!

I am in the process of reading this and putting into practice it's recommendations. It has really helped me health wise. I looked it up because I wanted to buy my mother a copy. I think it is a must for anyone that is suffering from fibromyalgia or candida or think they might want to improve their health.
