Customer Reviews

New Practical Chinese Reader, Vol. 2 (2nd Edition): Workbook (with MP3 CD) (English and Chinese Edition)

I bought this book along with the textbook. I've studied only the first few chapters of both of them, but so far both are excellent. The workbook contains numerous exercises of listening and speaking exercises, and reading and writing exercises to reinforce what's taught in the textbook. Many of the exercises are difficult, so that you truly learn from doing them. Most of the listening and speaking exercises are on the accompanying CD. If you're interested in seriously studying Chinese, I would highly recommend these books.

The practice activities here are challenging and often require the help of my professor to complete, but when I'm done I feel like I have fully understood the grammar, vocabulary, and characters. It would be nice if the more difficult writing activities included example sentences because I'm not always sure what I'm supposed to do. The accompanying CDs are very helpful, although I wish they included the pronunciation drills at the beginning of each workbook chapter.

This is a great book that really helps you learn Chinese. This has a nice lay out to understand and also helps you with learn grammar structures! I would order from this seller again!

Arrived on time, no problems at all.

I bought this book used and It looked like no one had every touched it :)

Good textbook

Great layout, looks nice and clean in this edition. It's very helpful for my class, I use it every day.

Excellent, it came in on time.
