Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. The map doesn't actually have the whole city, basically just the areas around Museum Island and Checkpoint Charlie.

Excellent map. like the paper quality - sturdy, easy to fold without tearing. Also contained useful information. Would highly recommend.

i liked the fact that the streets were easy to read. but the map is outdated and a lot of the sites are not included on it

Would buy again

Not a bad map by any means -- great paper stock, good graphics, seems up to date. But doesn't include a large portion of East Berlin -- coverage ends a couple blocks northwest of Alexanderplatz. And much of the back is wasted on museum hours, tipping etiquette, etc. Use that space for more map coverage, please!
