Customer Reviews

The recipes are really unique, just like the title says. My fave part is the selection of dips. At the moment I am actually in my kitchen with my blender working hard, preparing some of the dip recipes from this book. I love dips with fresh raw veggies like carrots and cucumbers. There is much much more variety in this book to be discovered. I am diving into right now. This book is different than other books by Dexter-he is focusing on recipes here, only recipes, but in the conclusion you will also find some of his personal opinions. If you have read his other works, you will see what I mean.

This book is exactly what I want. Different raw food options for different types of meals throughout the day. I especially like the dips/dressings recipes. I am now making lots of them for my salads and during breakfast time. Two of my favorites are orange ginger dressing and walnut honey spread. One thing I value is that this is more than just a book of recipes. Dexter, the author, also extends the conversation to a private Facebook Group and provides lots of his personal opinions which I value. So, I would say this book has lots of his personality in it. Love the human touch here!

I am always trying to find new, healthy recipes to help me manage my weight. This book is packed with so many delicious recipes! I have already tried the Whipped Strawberry Coconut Smoothie and the Spinach Strawberry Salad and they are both very tasty. I am glad I bought this cookbook, I plan on using it for quite a few other recipes I bookmarked that sounded good to me. If you need some new ideas for healthy eating, then I highly recommend this book.

Dexter Poin's Kindle cookbooks never disappoint and this is another amusing to read, recipe-packed delight. A must have for raw food lovers.

Banana dip rocks. This very deliciously raw book is also helpful to me enjoying my raw food!!

This book has some really interesting recipes that proves eating raw does not have to be boring.

I'm not a big fan of dieting and I certainly am not a vegan or vegetarian. Having said that these recipes are awesome and just like the title says, unique. I've only gone through about half the book but I'm impressed. I've been dieting for about a month but only had this book for a week. My weight loss has gotten 20% better thanks to this book. Great job Dexter.

As a long-time vegetarian I'm always searching for healthy and delicious new recipes. What I like about this book is not only are there great vegetarian and vegan options, but the raw recipes are also good for detox and general health.
