Customer Reviews

I absolutely love these flash cards! There is a lot of information to cover on the PRAXIS, but these cards do it very well. I was able to really practice and brush up on a lot of key vocabulary terms as well as basic elementary ed. principles, ideas, and psychologies. Once I got the cards cut out and shuffled, it was a breeze to flip through them. I was so happy when I found that I'd passed my exam on the first try, so I know that these are great! I would definitely recommend these to other future test takers. They really helped.

This is a really nice set of flash cards to help prepare for the PRAXIS certification exam. It is written well- all the concepts are fully explained in language that the reader can utilize and understand- not too complex but not too simple. I feel that it really gets you a good grasp on things and gets you well prepared for the test. The only negative I have found so far is that they are "flash cards," but they are in a book- without perforations. To turn them into flash cards, you would spend much time cutting this out. May not be a big concern of some people, but it would make it nicer to study from and help me remember the necessary information in the future. Overall however, I am happy with this. I would recommend this to others.

The content itself looks very good; however, this product is listed as FLASH CARDS. It is a BOOK with 3 "cards" (paper quality not cards or cardstock) that are not perforated. It is literally a book. I will have to tear out each page of this 555 page book, cut out three "cards" that are on each sheet, and then try to get them laminated, if this item is to be useful or even used as it is marketed as "flash cards".

Are you preparing to become an elementary educator? You will need to pass your state teachers certification exam and this book of flash cards will help you do that. The book has a 5001 designation which I understand to be tied to a specific test. I also see these flash cards as something a home school teacher could use to quiz their children. They cover English and Language Arts, Math, Social Studies and Science. If you go to the Praxis web site, you will find a practice test. The introduction answers the question of what is Praxis and what is on it and how it is administered and scored. Between this practice test and the flash cards, you should be ready to pass your teaching exam.
