Baby Happy Baby Sad (Leslie Patricelli Board Books)

Synopsis

YES! This must-have toddler title sheds light on some concepts with a comical flair that will make readers HAPPY. A towering ice-cream cone makes Baby HAPPY. But when that delectable treat goes splat, it makes Baby SAD. And how quickly HAPPY turns to SAD when a favorite red balloon flies away! Even the littlest listeners will relate to this playful look at a pair of emotions that are part of every baby's day.

Customer Reviews

"Just the thing for the toddler with turbo-charged vocal chords." The Sunday Tribune on Quiet Loud"
--This text refers to an out of print or unavailable edition of this title.

Leslie Patricelli is the author-illustrator of five other popular board books for toddlers, as well as the picture book THE BIRTHDAY BOX. She lives in Seattle.

Both of my kids have loved these Leslie Patricelli board books. This one can be a nice invitation to talk about feelings with older toddlers, who will find some familiar situations in it (the joy of getting muddy, the drama of sharing with peers, etc). The illustrations are attractive, funny, and easy for babies and toddlers to decipher. I would recommend this for ages 6-36 months.

Adorable little pictures in this book.... That's it! There is only one phrase in each page " baby happy" "baby sad", that's it nothing else but that. I'm quite aware that you would explain what is on the pictures to your child but if this what I knew it said on each page there is no way I would of bought it! I'm very disappointed in this purchase! I love the author but next time I will read the reviews on these books before I even buy them.

I've loved all of the other books by this author...except this one. It almost feels like it would encourage poor behavior when some of this should be normalized not put in a negative light. I understand that you'd want to illustrate to young children on their level of what they dislike, but this seems the wrong way to go about it. On top of that - it only describes sad and happy, which is only one in a myriad of emotions that need to be labeled for toddlers

We have most of the Leslie Patricelli board book. They are simple and have been the first books we've read to our babies. They are simple a short enough to maintain their interest. The illustrations are well done. My kids look forward to the light of "other" things at the end of each book and we point to each one while they say them. They are board books, so are very durable and have last through multiple children.

I started working with preschoolers and this book was just what I was looking for. It was cute, simple and to the point.

This is a lovely picture book for the little ones. My 2 year old was drawn to the happy and sad faces. I love that he can look at the pictures and know what the book is about even if its not being read. I have many of these books by Leslie Patricelli and my 2 yr old has loved them all!

agree with others, the book is as simple as great for tots

Love these books!
