Customer Reviews

I recently decided to start playing my flute again. It's been 20 years. I will never sound like I did when I played 8 hours a day but playing music is an activity that speaks to my heart and my spirit feels good. This is a good place to start or start over.

I guess I feel fooled. Granted it did say easy but it also said solos. Nothing in here is a solo, most are just very short and very very easy small excerpts. Several of them consisted of just 2-3 notes (pitches), For me, this was much, much too minimal, other than the Bach Jesu, they are so basic that they are not musical, no one is going to want to hear you play these, other than the Bach. An OK book I guess for someone really truly just starting in music at all. The book is poorly and really

not professionally made as well. After I learned the Bach, which I could have just done by ear, I put the book into the wood stove for the sake of the BTUs, not a keeper.

This includes nice songs, but most of them are arranged in a very low key, which makes them rather difficult to play, and they sound rather odd in such a low key. A couple of them sound a little better when played an octave higher, but overall I wasn't too impressed.

This is just the product I wanted. Check out the "look inside" view. It's familiar classic pieces, simplified. This will not challenge anyone over the beginner level, fyi.

This might be great if you had a tablet, but I don't and trying to read music from my computer screen is less than ideal.

I got this for my daughter because she really loves playing different music even though she is first year. She loved the solos!

My teacher has my book at her house again she's looked through it says its got stuff easy for a first year student.

Received book quickly and exactly as described.
