Customer Reviews

This book is very informative regarding the shapes or forms of the ironstone, the patterns or decorations, the makers and ages, etc. It should help anyone desirous of identifying their ironstone pieces.

As an white ironstone collector for almost 50 years, this is my go to guide for information. I credit it for saving me from bad purchases and for leading me to some real bargains.

This book is a great reference book for serious collectors of white ironstone pitchers! I've recently started searching for and collecting English white ironstone pitchers, and have found my "treasures from the past" in this book. The book has helped me confirm/verify my "new treasures!" Great pictures, too!!
