## Customer Reviews

Joan's highly successful Backroads series was born when she decided to combine a passion for writing with an equal hunger for travel. She has traveled Alaska, the Pacific Northwest as well as the Canadian West and the Arctic in a quest for the road less traveled and the interesting site just around the next curve in the trail. She is known to have traveled over 8,000 miles of highway to research one book.

When I purchased this book, I actually expected a backroads guide, something that got off of the beaten track. This book is similar to the Alaska 'Milepost', but without the yearly update. I ordered this book in hopes that it would cover some of the amazing backroads that branch off of the Denali Highway, only to find that the Denali highway isn't even covered.
