Alphaprints: Animal Opposites

Synopsis

Both parents and young children will love the crazy contrasting animals in Animal Opposites, the latest title in Priddy Books' hugely successful Alphaprints series. This new casebound board book features animal opposites, such as a big shark and little fish, hard lobster and soft jellyfish, noisy lion and quiet mouse. The easy-to-turn graduated pages have foil edges to give the book extra sparkle and shine, and there is added embossing to encourage little fingers to explore and develop fine motor skills. The Alphaprints series features unique artwork created using fingerprints and photographs of everyday things. The original title, ABC, has sold over 200,000 copies to date.
