Book by Denham, Terry

Simply an index of accidents around the world. Not much in the way of background information, but if you're trying to find the date a IL-76 crashed in Siberia in 1982, it's probably in there.

I borrowed this book from a friend who owns it and I started reading it and I got hooked from all of the vividly described stories told by passengers and crew of numerous aircraft accidents I Can't wait to own this book so I can read it over and over again.

If you are an aviation crash/accident buff, this book is for you. The accidents are listed by date, location, aircraft type, and injuries & fatalities. The book is basically a big list but it is an excellent aviation reference
