Customer Reviews

My granddaughter loves this series but I was shocked at how short these books are. I will find another series to buy for her. I don't think these are worth \$5 each.

I love reading these to my daughter. she has quite the imagination and these books really keep her interested. we share the reading...I have her read some and then I read some --keeping her engaged and improving her reading skills. If you have a child with a vivid imagination....this series is for them!

My 2nd/3rd graders thoroughly enjoyed reading this in conjunction with our study of rain forests. Of course, my students and I have not found a Magic Tree House book we don't like! We liked the way they could learn many facts about the rain forest while reading an enjoyable story. We also learned more about character traits.

My 5 year old loved this book .

All of the books in this series have been great so far. My son just started second grade and has been reading these books as part of his nightly reading assignment. I love how each book builds off the last. It gives my son something to look forward to each week as he reads these.

The Magic Treehouse books are truly magic, my 8 year old son loves them and I can't keep up with ordering them. I have purchased 4 at a time and he reads them in days. They are great books and great for his imagination!

Love this series and would definitely recommend it to anyone love the adventures and mysteries plus the suspense and easy to read chapters

Really enjoyed the book. Thee book was great and the bother and sister team worked reaLy well together. I will read more.
