# The Science Fair Is Freaky! A Branches Book (Eerie Elementary #4)

## Synopsis

Pick a book. Grow a Reader! This series is part of Scholastic's early chapter book line Branches, aimed at newly independent readers. With easy-to-read text, high-interest content, fast-paced plots, and illustrations on every page, these books will boost reading confidence and stamina. Branches books help readers grow! Eerie Elementary is having a science fair. Sam, Antonio, and Lucy are hard at work on their projects when they find a strange, old book. Suddenly, the school comes alive! The ground shakes, science projects explode, and the school gym turns into a giant volcano! How will Sam and his friends fight hot lava? And what is hidden in that strange, old book?

## Customer Reviews

Praise for Eerie Elementary #1: "The plot and twisted storyline will serve the beginning chapter book reader well. Word choice, action, and crisp sketches support the story, allowing early readers to develop ideas and easily follow the plot." -- Library Media Connection "Give this early chapter book to readers who want something scary but aren't ready for the 'Goosebumps' or 'Scream Street' series." -- School Library Journal "Dynamic, cartoonish illustrations amp up the action, and fun onomatopoeia provides atmosphere.... Readers who relish the action of Dav Pilkey's Ricky Ricotta

series and the just-beyond-safe scares of R.L. Stine's Rotten School titles may want to enroll at Eerie Elementary." -- Booklist"Chabert hits just the right horror note for transitional readers, with thrills that include a dash of absurd humor and fall tactfully short of being truly frightening....Simple sentence structureâ |and a direct storytelling style make this a worthy and creepy addition to the Branches seriesâ |Ricks' illustrations add an appropriately gloomy but playful touch." -- Bulletin of the Center for Children's BooksPraise for Eerie Elementary #2:"A good fit for readers not quite ready for Lovecraft Middle School or Goosebumps." -- Booklist

Eerie Elementary is having a science fair! Sam, Antonio, and Lucy are hard at work on their projects when they find a strange, old book. Suddenly, the school comes alive! The ground shakes, science projects explode, and the school gym turns into a giant volcano! Can Sam and his friends save the science fair?

My son is an avid reader and his three favorite series are Eerie Elementary, Captain Underpants, and My Big Fat Zombie Goldfish. He has read every book in Eerie Elementary that has come out so far and already asked me to preorder the next one. They are made for approximately 3rd grade reading level. He is in 1st grade but is advanced in reading from most of his fellow classmates.

We have been very pleased with this series. I have purchased them all and enjoy the ease of reading them for a beginner chapter reader. The books are good clean fun and have all been based around the school being haunted. We are looking forward to the next installment.

I teach 5th grade and this book is definitely written for lower grade levels, but it has been a major hit with many of my more reluctant readers. The books are fun and suspenseful without being too scary. They are also short which gives reluctant readers success in a shorter time.

Just like all the other books in this series, Eerie Elementary is planning something big, and Sam can feel it. When Sam and his friends, Antonio and Lucy, find themselves face to face with a real live volcano - in the middle of the Science Fair in the gym - they have to do some quick thinking and fast acting if they're going to save everyone from the school this time!

This is such an amazing book. It has such fun and adventure storyline. My son, who is 7, loves this series. He wants more. It is totally worth the money. !!! It keeps you captivated and wanting more.

Kids were anxiously waiting for this book and it definitely didn't disappoint!

I loved the book it was a very creative cool story everything about the book is awesome I am really looking forward to reading more books on eerie elementary!!!

My 8 year old son that doesn't love to read, read this book in a day! All of the other books in this series also my son LOVED!
