# Torts: Cases And Materials [Connected Casebook] (Aspen Casebook)

## Synopsis

Buy a new version of this Connected Casebook and receive ACCESS to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes – portability, meaningful feedback, and greater efficiency. This lean casebook is consciously designed to appeal to disenchanted users of the #1-selling Prosser casebook. Its content, organization, and cases-and-notes approach is explicitly modeled on Prosser, but the authors have capitalized on Prosser's weaknesses, focusing on providing key cases and concise, understandable notes. This book has the look and feel of Prosser, but will function much better for the many professors teaching a one-semester, four- or three-credit course. Features: Authorship – co-reporters of the Restatement (Third) of torts, and both known to be excellent teachers Conveys the core of Tort law through eminently teachable cases and informative topical notes Pedagogical notes challenge students to consider provocative questions about the cases – "Authors' Dialogues" – informal, highly engaging discussions and debates between the authors that raise interesting and provocative points about the topic under consideration while modeling for students the skills of thinking aloud and persuasion Presents 40 – 50 three- to five-line hypotheticals that test variations on fact patterns Fewer, more generously edited cases than Prosser Accompanied by a comprehensive Teacher's Manual that includes answers to the questions raised in the text, informs teachers about the important secondary literature, and provides commentary on the Authors' Dialogues as well as suggestions for using the dialogues in class or as reading assignments CasebookConnect features: ONLINE E-BOOK Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. Highlight, take notes in the margins, and search the full text to quickly find coverage of legal topics. PRACTICE QUESTIONS Quiz yourself before class and prep for your exam in the Study Center. Practice questions from Examples & Explanations, Emanuel Law Outlines, Emanuel Law in a Flash flashcards, and other best-selling study aid series help you study for exams while tracking your strengths and weaknesses to help optimize your study time. OUTLINE TOOL Most professors will tell you that starting your outline early is key to being successful in your law school classes. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester.

## Customer Reviews

Professor Twerski is a preeminent authority in the areas of products liability and tort law. The American Bar Association's Tort Trial & Insurance Practice Section honored him with the 2007 Robert B. McKay Law Professor Award, which recognizes law professors who are committed to the advancement of justice, scholarship and the legal profession in the fields of tort and insurance law. He was Co-Reporter for the American Law Institute's Restatement of the Law (Third) Torts: Products Liability, published in 1998. For his distinguished performance as a Reporter, the ALI named him the R. Ammi Cutter Reporter. He is a prolific scholar, having published dozens of law review articles on torts and products liability law. Among his recent articles are those published in the Yale Law Journal, Cornell Law Review, New York University Law Review, Northwestern University Law Review, and the Georgetown Law Journal. He is also the author of the leading textbook, Products Liability: Problems and Process (4th ed. 2000) (with J. Henderson, Jr.). His expertise has been widely called upon by state and federal legislative bodies considering product liability and mass tort legislation, and he is a frequent lecturer to the practicing bar. He joined the faculty in 1986, after serving as Interim Dean at Hofstra University School of Law, where he taught for many years. He also taught at Duquesne University School of Law and was a Visiting Professor at Cornell, Boston University, and the University of Michigan law schools. His background also includes a teaching fellowship at Harvard Law School, and work as a trial attorney with the U.S. Department of Justice in its Civil Rights Division.

not sure if this is the best book in the world but I needed it for school

Just be sure to buy the right book your professor asked.

This is the best Torts casebook on the market. In fact, it is perhaps the best casebook available for any subject. Profs. Twerski and Henderson have created a masterpiece.

good for use

I never received this item I purchased. I now have the inconvenience of filing a claim with . I do not recommend this seller.

I ordered this book and it was supposedly delivered to my house and signed for. But I have never nor anyone in my family ever seen it. I am not sure if this is a mix up by my family, the company or the delivery people. Though when I e-mailed the company I felt like they were not willing to work with me to find the book. If you order i'd just make sure you know when they are delivering and sign for the book yourself. If it gets delivered to the right place at all.

This is an exceptional casebook that reads like a virtual law class. The text is compelling and accessible -- even humorous where appropriate; it is an ideal text for a first-year class. Twerski and Henderson make the case that tort law deals with people and what people do to each other, as well as with how the law can or cannot make them whole. The Authors have included 'dialogue boxes' in which they argue about the outcome of cases, and the fairness of the results. These dialogues introduce the first year law student to the Socratic method, while clarifying the different viewpoints on the finer points of tort law. The text encourages the reader to question results and assumptions, distinguishing settled law from murkier issues. The text de-mystifies basic tort concepts such as duty and proximate cause, within the context of classic cases, outliers, and the development of the three Restatements. The Authors, who were reporters for the 3rd Restatement, have managed to document the common law as it stands throughout the States, including enough reference to assist any student's research, but without turning the text into a dry, extended bibliography.
