Customer Reviews

This is ok. It is easy enough for a level one pianist - but I'm disappointed that the middle section was completely eliminated. Buying online without being able to pre-view is difficult for piano music. It will make my student happy - but I was hoping for more.

I was disappointed that it was not the full song.If I had known it was only the first stanza I would not have bought it.

Just what I needed. Thanks

My daughter has been playing piano for about a year & a half, and with a little help initially, she is now working on this piece for her spring recital. It's a very simplified, but recognizable, version of a beautiful classic.

It's a good arrangement. I was hoping for a bit more simplified version, but it appears the biggest difference is changing the sixteenth notes in the original to eighth notes and then abbreviating the

song. For other piano instructors, students need to know all notes on the treble and bass clef, be aware of sharps and be comfortable moving hands to various hand positions on the keyboard. I would say this is best for second year students.

It's really a little too easy.

This arrangement is great for beginners to learn a wonderful classic piece.

A real disappointment. Only 2 pages
