If you are into trance or hyponsis then you cannot be without this book.I've given the book to so many people i've had to buy it several times and never regret it.I get to read it everytime I have to buy it again.

You will change just from reading this book. It is also entertaining, and gives the best education of what "hypnosis" is that I have ever read.

Good read and interesting vantage point on the art of suggestions known as hypnosis.

This is a rare and wonderfully astute book on hypnosis...

Great book

This is an amazing book. That reminds you that you can control your life for better and fuller life.
