Colorado Trail North, Monarch To Denver (National Geographic Trails Illustrated Map)

Synopsis

Waterproof Tear-Resistant Topographic Map The Colorado Trail North Topographic Map Guide has been designed as the perfect traveling companion when navigating the north section of The Colorado Trail. In a state known for its trails, The Colorado Trail is Colorado's premier long distance trail. Conceived in 1973 and completed in 1987, the trail runs 486 miles between Denver and Durango, traversing some of the most spectacular scenery in the state. The Colorado Trail is often started at its north terminus in Waterton Canyon just outside of Denver. When traveling from north to south the trail follows the South Platte River and quickly climbs into the Lost Creek Wilderness. From here the trail crosses into Holy Cross Wilderness near Leadville. The trail then skirts the eastern slope of the Sawatch Range and passes beneath Mount Elbert, the highest mountain in Colorado. Next comes the Collegiate Peaks Wilderness with its multiple 14ers before finally joining with the Collegiate Loop near Monarch Pass. The Colorado Trail from Monarch to Durango is then picked up on the south Topographic Map Guide. Each page is centered on the trail and overlaps with adjacent pages so there is little chance of getting lost. Along the bottom of each page is a trail profile that shows the distance between passes, camping areas, and trail access points. The map and trail profile provide a step by step visual guide to hiking the trail, mile by rugged mile. Expertly researched and created in partnership with local land management agencies including The Colorado Trail Foundation, this map guide provides detailed topographic maps, interesting history, bike detour maps, and a resupply location chart shows distances, and services available at each resupply point. More convenient and easier to use than folded maps, but just as compact and lightweight, National Geographic's Topographic Map Guide booklets are printed on "Backcountry Tough" waterproof, tear-resistant paper with stainless steel staples. A full UTM grid is printed on the map to aid with GPS navigation. Map Scale = 1:75,000 Folded Size = 4.25" x 9.38"

Book Information

Series: National Geographic Trails Illustrated Map

Map: 44 pages

Publisher: National Geographic Maps; 2017 edition (June 23, 2017)

Language: English

ISBN-10: 1566956951

ISBN-13: 978-1566956956

Product Dimensions: 3.9 x 0.1 x 9.1 inches

Shipping Weight: 4.8 ounces (View shipping rates and policies)
