Customer Reviews

I ordered this for my eight year old son whom we are teaching German as well as English. I wasn't exactly sure what it was but the description says, "a lot of activities and playful games that will make your kids never want to give up learning German." However, each page has a single picture and then a column to write the word in English and a column to write the word in German and three rows to write it several times. That is not "a lot of activities and playful games." This might be appropriate for a first grader that has never been exposed to German and wants to practice a FEW very basic single words. However, I think most kids would find it boring - there is nothing interactive or creative about it. It might be something that someone is interested in, but it is not true to the way

it is advertised.

does a great job, and maybe a lot more it is very easy to manipulate love it! I would come to this store if I need more. high cost is worth buying So far this item is great amazing how well it worked
