Think And Get Laid: The 11 Keys To Unlocking Female Attraction

Synopsis

Everything society tells us about attracting women is completely wrong. Think and Get Laid changes that. Think and Get Laid gets to the very core of instinctive attraction, past all the misleading fluff that society and the mainstream media tell us. Broken down into simple components, filled with clear examples, and backed up by countless studies, Think and Get Laid will guide you out of the false beliefs hurting your success with women and show you what women are biologically wired to find attractive. Men today lack success with women because they simply do not know or understand what women are attracted to. Unlike conventional dating advice, Think and Get Laid focuses on natural attraction and what causes attraction on an instinctive level. Not on what women claim they want (Ã¢â¬ÅI just want a nice guy!Ã¢â¬Å) or what males in general believe women want (Ã¢â¬ÅWomen only want men with money and cars!Ã¢â¬Å). The focus on natural attraction means that what you learn works on all women in all situations, no matter age, nationality or the type of relationship you want. What you learn in Think and Get Laid is universal. Women don't choose to feel attraction. Attraction is not a choice, and Think and Get Laid reveals what all women are naturally hardwired to respond to. The keys essential to unlocking female attraction revealed in this book are so universal that they'll work amazingly whether you want an impressive string of one night stands, true love, abundant casual sex without commitment, or just a sexy girlfriend. Inside, you'll find no fake, gimmicky, manipulative tricks, lines or routines, only the powerful psychology of attraction that you can use to dramatically upgrade your love life today. Customer Reviews

This book was very informative, well written and far more sophisticated than the title would lead you to believe. I found it to be more a psychology study and behavior guide that could help a lot of men.

I'm surprised how some reviewers call this book a 'decent book' or call its content like 'too basic'. I've read other books about seduction from PUA artists like 'The Game' (by Neil Strauss) or 'The Mystery Method' (by Erik Von Markovik) and, to me, none of them are as good as this one. Those books teach you the 'little tricks', this one teaches you the mindset. Those books teach you how to fake you're a wolf, but this book teaches you how to change the way you think so you can truly start thinking like a wolf. To me, and maybe I'm too native, this book is on another level.

I think it's a good read. It definitely changes your perspective about woman. The only reason I gave it 4 is because it sometime gets confusing....

The Bible for guys!!!

Takes some good references and it's easy to read. But know right away that this is statistics and not an absolute results formula

good job

The information from this book was basic. Good information for those who may need the help of something like this book, but overall decent information. The delivery was succinct and straightforward. The writing style was very accessible and the assertions from this author were very reasonable. Criticisms: The book could have literally been completed in bullet outline form. No

profound or revelatory information whatsoever. Perhaps the biggest knock against this book is how poorly executed it was. Poor editing. Grammatical errors nearly every page. I doubt it had a proofreader. Pros: Repetitive and poorly edited, HOWEVER the information was spot on. I saw results within the first week. Overall: Decent information and examples to build confidence and get started. The author makes it clear that being better with women is a skill. If you can put up with the bad grammar and poor execution of the presentation then this book is for you. If not I suggest looking at and more established author on this topic.

Most men struggle when it come to dating women, this book offers many great ways to that are not just random suggestions but are ones that are backed up by many studies. These tips can help anyone who is having trouble with women, fantastic read!
