## Customer Reviews

Praise for Michele Olivier's first book Little Foodie: "We love Olivier's depiction of a foodie superhero as an adventurous eater who isn't afraid to at least taste everything, and her cookbook features awesome tips for turning your tiny taster into a true food lover. Why You Should Buy It: Olivier recognizes that parents need to eat too, and includes fun drink pairings for the grown-up set. It's truly a cookbook for the whole family." Red Tricycle "These are just great recipes, kid or not, lunch or dinner. From easy baked falafel, to Vietnamese meatballs with dipping sauce, to DIY garlic noodles and crispy chicken strips made with brown rice cereal and sunflower seeds, these are kid-approved recipes that are far from boring." Blogger Nicki Sizemore, From Scratch Fast "Trust me when I tell you, this is going to change your lunch game!... This will revolutionize your lunch; whether you need to pack a lunch for school, day trips, the office lunch or simply need some inspo for when you're at home. You NEED this book." Toddler and Toast • Starting pre-school or Kindergarten is not only daunting for kids but for moms as well. I was struggling so much until Little Bento came into my life. This has been a great inspiration to me and having to pack lunches for my LO. So far we have both loved everything we've tried. Even the Cheesy Kale Quesadillas, which I didn't expect to like and did, and were his favorite so far. She gives great advice on how to mix things up for more variety, and each recipe makes it really easy to see how well it stores in the fridge or freezer so you can properly plan for packing multiple lunches at once.

Love this book! Cute, fun and inspiring!

This book has given me so many good ideas for meals for my little ones. Mine are not in school yet but we still use the recipe's for fun yummy meals.

So far I love this book. Has some great and tasty looking recipes! Now just to see if the little ones enjoy these recipes!

Love this book!

I purchased Little Foodie earlier this year and loved it, so I decided to order Little Bento. One of the things I love about this book (and Little Foodie) is that it's not preachy. If you can get organic cool, if not THAT'S OK. The author never condemns or judges. Michele Olivier just wants to help make simple, and healthy meals for your kids. I also like that she explains how to turn some of these meals into complete meals for the entire family or offers alternate meals if you don't want to make a certain meal. She also uses food children eat. I can't tell you how many sites I've been to telling me to go and get ethically sourced spirulina from the mountains of Ecuador or whatever else foolishness for a CHILD to eat. As with any cookbook, some things I'm probably not going to try because they appear to be a bit time consuming, but those recipes are very rare. The majority of the Bento lunches are quick and easy and most can be eaten throughout the week. The book is fun and relatable and offers great new ideas for lunch and/or dinner for the kids; or in my case goddaughter.

Book contains great books to ideas many of which can be adapted for paleo and keto diets.

I haven't tried any of these recipes yet but I already love the sound of the many and varied ones in this book. Having recently made a radical change in my eating, I am looking forward to trying a lot of these recipes.
