Skippyjon Jones: Up And Down

Synopsis

As always, Skippyjon invites readers to join in the magic that comes of a playful imagination. Little ones will learn all the ins and outs with Skippyjon Jones. He goes up and down, back and forth, and over and under. At the end of the day, he's ready to begin again. Opposites have never been so loco!

Grade Level: Preschool and up

Customer Reviews

Best known for her Skippyjon Jones series, Judy Schachner has illustrated many of her own stories, including the much-loved [Grannyman](#) and its companion book, [Bits & Pieces](#). She lives in Swarthmore, Pennsylvania.

This is a book of opposites and not really a story. The pictures are cute and go well with the words, which include under/over, near/far, big/small, sleep/wake up. My baby's favorite SJJ book is the 1-2-3 book, but he will listen to this one too.

my grandkids jayla and joey age 4 and age 5, these children love everything wrote about skippy and his friends adventures the skippy john stories are so adorable my kids really enjoy these books and hearing all the many adventures of skippy and his friends.i also like the spanish part of the story it adds to the cuteness

These first Skippy John books are beautifully constructed. just right for our tiny toddlers hands. The colors are bright and vivid. She already loves being read to, but was quickly captivated by "I can do this myself".

Love the Skippy!

Yes, this book met my expectations as a fun book to read to a young child, one to help with the development of understanding of basic concepts. The pictures are colorful and whimsical.

A gift for our first Grandchild, she immediately began to repeat Skippyjon's name. She loves the hard books (she is 19 months old), but we also gave her a couple of the paperbacks. Her parents are keeping those aside for together reading only at this time.

On time and as advertised. Perfect for what I need.

My almost two year old loves this book. He follows along and repeats Skippy's movements. Good, quick read for busy toddlers.
