Don't buy this book unless you like using canned food and refrigerator biscuits in your recipes. This is not what I expected at all.

One of my favorite cook books. One of the few cast iron cook books that give directions for both the stove, oven and campfire. The recipes are not complicated, but cook. I have given this cook book to several of my friends, and they were also VERY happy with it, and have enjoyed the recipes out of this book

This is a good book. Tells how to cook the recipes on top of the stove, in the oven or out camping. There are some really tasty recipes in there. Some call for canned goods and not too many fresh items that are hard to keep fresh when camping Highly recommend this for anyone looking to start cooking in cast iron. It even tells you how to season your new pan and care for them.

Great shape and love the information on the pages with great photos. Nice recipes.
