## Customer Reviews

Wow, love, love, love this book! I attended a school, passed my test and received my All-line Texas

Adjuster's license, but then I hit a wall. I'm new to the industry and although I learned a lot in the school, it was a bunch of info in a really short amount of time. This book has encouraged me to move forward with this career and has helped fill in the gaps with questions I had. I highly recommend buying this book if you're thinking about being an Adjuster or already have a license and need some very helpful professional job advice.

This well written, fun to read and informative book offers a great value to the aspiring adjuster. Like any field one enters there is nomenclature, organization styles and traditions that dictate how one works professionally in that field ie. - 'When in Rome do as the Romans do'. Mr. Spurling has done a terrific job in presenting a good overview of adjusting life, day to day operations and provides excellent links to important industry sites, forums and tools used by the seasoned pro's. I'm happy to have found this book before I got too far along in the process as it is a true 'help guide' to further my career as a CAT adjuster. Thanks!

I've been on one deployment to Mathew and there were things in this book that would have been helpful...great incite for the new adjuster. Short and easy to read.

Informative and well written. If you're interested in the subject, this is the first place to start even before your license. You'll have a better idea of what you're getting into.

Great book....thanks for easing the anxiety of heading into the field, have done a zone deployment but waiting for that big one like everyone else, after reading this book, which by the way I read from front to back without putting it down! and taking in your many useful tips and years of knowledge I'm more excited than ever to get out there and ADJUST! I'd recommend this power house to anyone interested in the field of adjusting.

Clear and easy to read. Must buy for new adjusters wanting to be independent adjusters.

I'm just starting my career as an adjuster and this book was a great help in putting my nerves at ease! Great details!

I am interested in learning who adjusters are. This book paints a good picture. I am a board member of an hoa. I want to understand how to deal with claims
