Rosie Revere's Big Project Book For Bold Engineers

Synopsis

Embark on an adventure of personal creativity and invention with fan favorite Rosie Revere! This activity book features art from the picture book *Rosie Revere, Engineer* and will inspire young readers with activities of all kinds. Kids will have the chance to design a better bicycle, build a simple catapult, construct a solar oven, and more! This empowering activity book will teach problem-solving and creative-thinking skills crucial to STEM fields while also providing opportunities for its readers to try new things and, sometimes, to fail. As the picture book so brilliantly showed hundreds of thousands of young readers, flops are an inevitable part of success and something to be celebrated rather than feared. Created by Andrea Beaty and David Roberts, the same New York Times bestselling team who brought us *Rosie Revere*, *Iggly Peck*, and *Ada Twist*, this activity book will be perfect for old and new fans alike!

Book Information

Paperback: 96 pages

Publisher: Harry N. Abrams; Act Csm edition (April 4, 2017)

Language: English

ISBN-10: 1419719106

ISBN-13: 978-1419719103

Product Dimensions: 9 x 0.4 x 11 inches

Shipping Weight: 14.9 ounces (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 19 customer reviews

Best Sellers Rank: #7,212 in Books (See Top 100 in Books) #8 in [Books > Children's Books > Science, Nature & How It Works > Experiments & Projects](#) #9 in [Books > Children's Books > Arts, Music & Photography > Art > Drawing](#) #60 in [Books > Children's Books > Activities, Crafts & Games > Games](#)

Age Range: 5 - 7 years

Grade Level: Kindergarten - 2

Customer Reviews

"This ingenious spin-off of Beaty and Roberts's *Rosie Revere, Engineer* aims to get children asking questions, finding treasure where others see trash, and dreaming up solutions for such real-world "problems" as figuring out how to open a door with one's elbow... Games, profiles of inventors, and an all-around focus on pie-in-the-sky thinking add up to an activity book with substantial depth." (Publishers Weekly)

Andrea Beaty is the author of Iggy Peck, Architect and Rosie Revere, Engineer, among other children's titles. She lives just outside Chicago. David Roberts has illustrated many children's books, including Iggy Peck, Architect; Rosie Revere, Engineer; and Ada Twist, Scientist. He lives in London, where, when not drawing, he likes to make hats.

This is a great edition to my K-2 unit on design process. There are also come more complex goodies to leave behind in my sub plans to keep the older students happy.

I love this series and this is a terrific expansion to the franchise! The ideas are great and the fact that they tie in naturally to the book are great!

Book arrived promptly. My granddaughter loves the Rosie Revere character. She liked it so much she dressed up as Rosie for character day at school.

We opened week two of preschool with the catapult challenge. The children loved it and it was no problem getting them engaged. The other challenges are not necessarily appropriate for my little guys but I can adjust as I need to.

Rosie Revere's Project Book was an excellent gift book for both boys and girls. The projects were clearly laid out and simple to follow allowing children to have complete ownership.

This book is great with tons of cool ideas and activities. Great for teachers.

My grandchildren enjoy this series and STEM awareness can't hurt.

I absolutely love this series. So cute.
