Starred Review. Cronin and Bliss repeat the comic ingredients that made *Diary of a Worm* so successful in this rib-tickling sequel. This time the diary is written by Worm's friend Spider and filled with similar verbal high jinks, deadpan humor and visual jokes that offer readers a whimsical glimpse of the world from a small creature's point of view. Endpapers feature photos of Spider's family as well as his favorite book (*Charlotte's Web*), his discovery of a "neat sculpture!" (a toilet bowl) and a playbill from his school's production of "The Itsy Bitsy Spider" (a review blurb by Worm says, "You'll dig this play"). Children will relate to the book's droll humor, as when Spider goes to the park with his sister ("We tried the seesaw. It didn't work") or when he takes his molted skin for

show-and-tell. A slight story line about the tension between Spider's friendship with Fly and his Grampa's prejudice against all six-legged bugs threads together the amusing vignettes. (When Grampa says, "Without spiders, insects could take over the world," Bliss features a menacing alien bug as President of the United States.) This endearing book delivers a gentle message that comes through when Spider muses, "I wish that people wouldn't judge all spiders based on the few spiders that bite. I know if we took the time to get to know each other, we would get along just fine. Just like me and Fly." Ages 4-8. (Aug.) Copyright © Reed Business Information, a division of Reed Elsevier Inc. PreSchool-Grade 3 Children who enjoyed *Diary of a Worm* (HarperCollins, 2003) will be enchanted by this artistic team's latest collaboration. This time, Spider is the star. Through his humorous diary entries, readers learn about typical events in the life of a young spider. When Spider's mom tells him he's getting too big for his skin, he molts. Fly's feelings are hurt by a thoughtless comment from Daddy Longlegs, and Spider tries to help. He is concerned that he will have to eat leaves and rotten tomatoes when he has a sleepover with Worm. Spider's school doesn't have fire drills; it has vacuum drills (vacuums eat spiderwebs and are very, very dangerous). Grampa tells him that spider-fly relations have improved over the years and shares the secret of long life (don't fall asleep in shoes). The amusing pen-and-ink and watercolor cartoons, complete with funny asides in dialogue balloons, expand the sublime silliness of some of the scenarios. Great book! My granddaughters loved it! It has some dry humor which the kids do "catch". The other book, "the diary of a fly and the diary of a worm " are good also.

I love this series of books. This book is especially adorable and informative. It's a good addition to any classroom or home library.

My girls read this story in school and I thought it would be nice to have a copy at home. It's a wonderful, humorous message about not judging others before getting to know them.

Its a cute book with some funny moments, but the way it's written makes it kind of hard to just.. read

to little ones. It's written in diary format with dates (with photographs in the front and back covers labeled like a scrapbook), it seems like it would be better suited for kids that can already read, to just look at the book themselves rather than a parent like me reading to toddlers because it doesn't really read smoothly (if that makes any sense.) Like I want a book I can just read to the kids at bedtime easily without having to point and explain what's what. It talks about how if spiders and flies take the time to get to know each other they can all be friends, and that grandpa is old fashioned for not liking them, but other bugs are still perfectly fine to eat apparently, like butterflies.

Fun book for young readers.

My daughter loves this series of books.

Grandson loves it!

I bought "Diary of a Spider" thinking that Doreen Cronin's books are always a big hit with my daughter. After all, she just loves, "Click, Clack, Moo!" and the others of that series. I thought getting this series could introduce her to the world of insects and "icky" things. Instead, I found something unexpected happened. My daughter was 5 when I first started reading "The Diary of a spider" to her, and sure enough, she loved this book became interested in the life of spiders. But that was not all. My daughter also began to express an interest in keeping her own sort of diary, even though she cannot yet write. She asked me to buy her a little journal, and she glued pictures and stickers from school and her Kindergarten class in it. She added some photos of our family; had me write the names of the people under the pictures for her. I do not think she would have come by starting this sort of scrapbooking or diary-making without having read "Diary of a Spider" and seeing the value of this activity. "Diary of a Spider" really helped her to see that every body's point of view is unique and special. I am really delighted in this result and highly recommend this book for its value not only in garnering interest in entomology, but also for developing positive self-worth and interest in Diary making.
