Clinical Skills: Respiratory Care Collection (Access Card), 1e

Synopsis

Learn to master the most important nursing skills before you ever step foot in the clinical environment. Clinical Skills: Respiratory Collection is an engaging, web-based learning tool that guides users through more than 100 of the most important respiratory care nursing skills. Each skill in the collection uses the same seven-part framework to walk you through every aspect of the skill. From special patient and safety considerations to the equipment and techniques used in the skill, this assembly of animations, interactive learning tools, and in-depth explanations will leave you with a 360-degree understanding of how to safely and effectively perform each skill. Convenient web-based program utilizes the same professional format that practicing nurses use to train. Consistent, competency-based format for learning skills offers a standardized way for you to learn and perform skills. Most skills feature the same types of skill learning tools to help you obtain a more holistic understanding of the skill and standard QSEN nursing competencies. Quick sheet provides a concise, step-by-step summary of the skill. Extended text offers an in-depth look at all aspects of the skill. Subjects addressed in the extended text section include: Safety alerts, Supplies, Patient and family education, Procedures, Delegation opportunities, Monitoring and care, Expected and unexpected outcomes, Documentation guidelines, Special gerontologic, pediatric, and home care considerations, Evidence-based references, Additional reading suggestions. Equipment list familiarizes you with each piece of equipment needed to perform the skill. Demonstration animations visually guide you through every necessary step involved in the skill. Images and illustrations highlight crucial procedures, equipment, and documents involved in the skill. Competency tests with rationales help you review and evaluate your understanding of the skill. Printable evaluation checklists help you measure and track various skill competencies.
