DOWN DALTON HIGHWAY: Driving The Ice Road From Prudoe Bay To Fairbanks

Synopsis

Down Dalton Highway is a travelogue written by the celebrated explorer and author, Akhil Bakshi, describing the road journey from Prudoe Bay, at the northern end of Alaska, on the Arctic Ocean, to Fairbanks. Besides the prose and the wit, the author shares a wealth of information, in his chatty style, on the history of the Ice Road and the Trans-Alaskan Pipeline. History of Alaska and the Gold Rush is shared through the eyes of Koyukuk and Yukon Rivers. The book also focuses on the impact of climate change on Alaska and its native communities. The text is enriched with 30 colour plates.

Customer Reviews

I did the same drive last July as described in this book except that I did not go all the way into Prudoe Bay. This is a fun "slice of life" book that is entertaining and informative for anyone considering a trip up the "Haul Road".

Well written, but more about the history of the Dalton and climate change than a true driving

experience story.
