This review will not show up as "Verified" since I have to buy books on .de because I live in Germany. I however still post reviews on .com since this is where they would help the most. I never had problem with my reading speed, but it always bothered me when somebody hands me something to read and they watch me reading with that "how slow are you reading" stare...! I got this book and got some great tips to improve my speed. The App suggestions also helped as I am now "training" daily and can already see results. Thanks Liam.
