This book was a gift for the school librarian. She really wanted some of these books, and did not have the budget. She loves them. Why? They are very easy to read yet they appear just like chapter books, not "baby" books. The sports subject draws in the reluctant reader. They are specially designed with plenty of white space so as not to be intimidating. Once a child gets into reading and experiences success, even if he or she is behind, the progress can amaze you. (Remember to turn off the tv/video games/computer for this to work. When trying to get a kid to read, boredom is your best ally.)

This book was very interesting. Although, I think that the it could have had a little more detail. I enjoyed this book a lot. I think that a lot of my friends would like this because most of them like basketball. I would recommend this book for anyone who likes basketball. I hope you read this book! I'm sure you'll like it, I know I did!

I just love this story because I love the problem and I love basketball so I think this is one of the best books ever!!!!!!
