A nice overview of the basics of Spanish grammar for my homeschooling daughter. It's a lot of details to take in but it helps especially when she needs either a concise explanation or a quick reminder of something specific.

As a beginner I found this kind of confusing. Hoping I can appreciate this more when I take Spanish 200

My daughter is a 1st year Spanish student. She is just starting to use the study guide, but so far she loves it.

Although tiny print, this is a great resource for learning Spanish.

Useful for students at all levels. It is lamented. The only thing is that the print is really small.

Great primer and reminder sheet for my 11 year old son who is learning spanish. He refers back to it when doing homework.

Good price - Fast shipping.

very handy and quick ref
