# JUDY MOODY WAS IN A MOOD (BOOK #1)

## Synopsis

Reissued in a way-cool paperback design "Judy Moody was in a mood. Not a good mood. A bad mood. A mad-faced mood." To start, Judy Moody doesn't have high hopes for third grade. Her new desk won't have an armadillo sticker with her name on it. Her new classroom will not have a porcupine named Roger. And with her luck, she'll get stuck sitting in the first row, where Mr. Todd will notice every time she tries to pass a note to her best friend, Rocky. An aspiring doctor, Judy does have a little brother who comes in handy for practicing medicine, a cool new pet, and a huge Band-Aid collection. Judy also has an abundance of individuality and attitude, and when Mr. Todd assigns a very special class project, she really gets a chance to express herself! Megan McDonald's spirited text and Peter Reynolds's wry illustrations combine in a feisty, funny first chapter book for every kid who has ever felt a little out of sorts.

## Customer Reviews

The first day of third grade puts Judy Moody in a mad-face mood. She just knows everyone will come back from summer vacation with word T-shirts, like "Disney World" or "Jamestown: Home of

Pocahontas." All Judy has is a plain old no-words T-shirt. She'll have to go to a new classroom, with a new desk, and she won't have an armadillo sticker with her name on it like she did last year. And knowing her luck, she'll end up sitting next to Frank, the boy who eats paste. For breakfast her dad makes eggs with the yellow middle broken, and her younger "bother," Stink, thinks he knows everything now that he's starting second grade. But bad moods never last long with the irrepressible Judy Moody, and before long, her day--and year--look brighter. Mr. Todd assigns the class a "Me" collage, which sets Judy on a lively and hilarious self-exploration over the next few action-packed weeks. Prolific author Megan McDonald (Beezy and Insects Are My Life) introduces readers to a thoroughly charming, independent, willful heroine, who is far more upbeat than she likes to let on to her reading audience. Remarkably understanding adults populate Judy's world, allowing her to express her witty, resourceful self freely. Peter Reynolds's personable line drawings complement McDonald's text in a light, pleasing style. (Ages 6 to 10) --Emilie Coulter --This text refers to an out of print or unavailable edition of this title.

McDonald's (the Beezy books) comical novel introduces the entertainingly mercurial Judy Moody. The book itself has a look as fresh as its heroine (a compact trim size and an inventive jacket design die-cut that reveals the bright green and orange of the cover below). From the start, Judy devises intriguing solutions to her dilemmas. The book opens on the first day of third grade, with a hilarious spread in pen-and-ink wash showing only Judy's feet sticking up from her bed as her mother attempts to rouse her from the doorway. What to wear? Judy has no T-shirt to rival her classmates' shirts touting their exotic summer destinations, so the heroine decorates a plain white T with a drawing of a shark and the words "I Ate a Shark." For a "Me collage" at school, she insists that her cat, Mouse, is too old to qualify for the "My Favorite Pet" slot; unable to find a two-toed sloth, she purchases a Venus flytrap and proceeds to overfeed it raw hamburger. Her relationship to her best friend, Rocky, and her second-grade brother, Stink, also propel the plot in diverting directions, and the dialogue is spot-on (e.g., when aspiring doctor Judy gets her kit in the mail, Stink asks, "Why can't I ever be Elizabeth Blackwell, First Woman Doctor?" and she responds, "For one thing, you're a boy"). It's hard to imagine a mood Judy couldn't improve. Ages 6-9. (Apr.) Copyright 2000 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

LOVE this series of books.....my 2nd grade daughter and I read it together and laughed until tears were coming down our face.....we love this series and highly recommend it.....

My granddaughter read this book cover to cover and announced I know how Judy feels, but she made me laugh. She feels the author really knows how kids at that age feel, but she has a novel way of getting Judy out of her mood and making everyone laugh. My grand daughter is looking forward to another Judy Moody book.

Judy Moody keeps us all entertained. As the grandmother, I enjoy hearing the dilemmas of Judy, and the wonderful way her family deals with her. I love her red boots !!

I purchased this book because it was a mandatory summer reading assignment for my step-daughter. I was happy with the quality of the book. You would never know it was used. Also, it arrived very quickly. We read the book together, and now I can check that off my summer to-do list. I would definitely recommend purchasing from this seller again.

My child loves this book really fun and silly!

Super fun book my son and daughter both asked me for more Judy Moody books.

They were gifts

I have always loved Judy Moody and think this one is the best! I think it is easy to read so younger people can read it!
