Customer Reviews

I purchased this book for a gender studies course and thoroughly enjoyed reading it. I think it should continue to be read for quite some time. Would recommend for most. Don't be shied away if you think it is just for hardcore feminists because it is not, and I am not but I still found it enjoyable and thought that it brought up good points.

Bought this book for my sister. It took long time to read it for her, but she is very pleased with it. It's a good and very practical book and even I can see new changes in my loved sister. She said that a lot of chapters were new for her. This book was a gift, so I'm very happy that she liked it.

Everybody should read this book at least once in their life. It is so important; especially in this day and age, to really understand what is going on in the world around us.

Amazing book! Stumbled upon this book in the perfect timing of my life and I've learned so much

from it. This is the ideal book for a woman who is spiritual. This will help you grow along your journey . And be better as a person energetically. :)

And I do not blame her for thinking that way at all. I have nothing against books targeting a spiritual or religious audience but I feel they should be indicated or marked so that one knows what they are getting into. This is not a secular book, and it requires you to walk a tightrope -be independent yet submissive, be aloof yet engaging, be affectionate yet absent, etc., making dating feel less fun and more stressful. If you are into the surrender self, meek not weak model of womanhood this is probably a great book. If you are not religious, or don't find it easy to balance contradictions, this is probably not the book for you. I just wanted my intense but ethical, kind and loyal friend to not be too stressed about dating and now I have stressed her out more than ever....

This was actually read by my sister who's visiting my loft for a month. Since she has nothing to do, she asked me to get this book for her. According to her, the book has a nice touch with the subject. She kind of like how Bryan Bruce wrote this book. I can imagine that there will be more books of him in my account soon.
