The Consequences Of Forever (The Haven Series Book 1)

Synopsis

The first book in a series. Getting pregnant two months shy of her sixteenth birthday was never part of Lainey Winslow's plan. Then again, meeting Adam Montgomery on a cool summer night wasn't either. Faced with the hardest decision of her life, Lainey chooses Adam and their baby. But motherhood in high school isn't something that can ever be handled with ease and Adam's promises of forever only do so much to help. With summer long behind them and an uncertain future looming ahead of them, will Lainey and Adam figure out how to make it work? 'The Consequences of Forever' is a story about first love, friendship and the meaning of family.

Customer Reviews

There's a beautiful thing about realistic fiction. It takes the ordinary and makes it extraordinary, the mundane to the beautiful, and those who we never took a second glance at; a neighbor, someone walking their dog, or a person living in a different part of the world, and suddenly they become alarmingly existent. I started this book two weeks ago and finally savored the last drop of it today.

This book spoke volumes in its silence and every chapter needed to be pondered as each character was brought to life in my head. Don't get me wrong, I enjoy pretending I'm the innocent damsel who falls in love with a billionaire only to question whether or not it's going to work because of all his emotional baggage. Those stories are light, airy, and entertaining. But Kaitlyn Oruska's story is multidimensional, realistic and thought provoking. There was never a part of this story that was unrealistic. Even the instances that I was annoyed with their behaviors, it was still consistent with that 15-17 year old mentality. But even within those small annoyances, the author dropped pieces of genius in her writing, making certain lines stand out among a paragraph, where I found myself stopping to highlight them. This book is literary fiction for any teenager. Getting pregnant at fifteen can't be an easy situation to deal with and this story sweeps you right into it. I honestly felt confused, desperate, lonely and scared. But there were other times when I was happy, hopeful and nostalgic. This story really does have it all. 4.5 Stars

The book caught my attention in the beginning and kept it until I finished it. Good thing it was a Sunday afternoon. It was not what I expected but it was refreshing to show that there are teenagers out there that get it. To see what they get you will have to read the book and it is so worth it. I loved that it told a story and actually finished it so that there could be other books about secondary characters but it's not necessary. The main characters had enough closure for me to not feel like I was left hanging. So many authors try to sell more books by leaving you with a cliffhanger. I would read this author again based on the ability to further the story but leaving me feeling satisfied. Really loved this book.

The Consequences of Forever was a very easy read that allowed the reader to become curiously interested in the leading characters, the supporting cast and the choices they each make that would determine the rest of their lives - maybe? What are the best choices for Lainey and Adam and did they make the right one? How could a mother who left her child at such an early age, come back into her life only to walk away again? Do Scott and Lainey have a connection that will play havoc in her forever commitment with Adam? Or is it Noah who will cause Lainey to make heartbreaking decisions in the future? And what about her stepsister, Hannah, her stepmother, Nora and Lainey's dad? Will they ever find resolution in their relationships, and if not, how will it affect Lainey and Adam and the baby? So has Kaitlyn Oruska cleverly involved the reader into wanting more? I would say YES!

This story brings back a lot of memories , memories of being young, and foolish, of things that when you think as an adult, you'd never do. this is a story of two people who have made decisions to do the right thing as they accept the consequence of their mistakes. Adam and Lainey are going to be teenage parents, and they realized for as long they hold on to each other they can weather the storm that life will throw their way. It is also a story about family, being accepting of each others short comings, and being there for each other. And that a family need not be related by blood to be part of one. BUT GREATEST REASON for it all IS STILL LOVE! this book has a lot of insights into different family dynamics seen in our society today. the only short coming i can say in this work is the jump from one significant date to another in the chapter itself when a character looks back in certain events since its quite distracting. but over all it is a really good read. (but I would have love a good epilogue many years after. I am still getting anxiety attacks on what could happen to them next. Being married with child is hard, but bringing up a child when you are but a little more than a child yourself , I just couldn't imagine !)

"Girl" books aren't usually my thing. In fact, I'm trying to think of one I actually finished reading, but can't. That right there tells you how much I enjoyed this book. I was drawn to it because of the synopsis and once I started reading the first few pages of the book itself, I knew that Lainey and I were going to get along just fine. This book is a mature and realistic look at teen pregnancy. The main character, Lainey, has to endure a nine month roller coaster ride, and I felt like I was right there in the seat next to her. The author, Kaitlyn Oruska, did a great job creating lots of ups and downs, and loop -D-doos. I'd often finish a chapter and have to stop and catch my breath. This book stirred my emotions. It brought both laughter and tears. (The happy and sad kind.) And it even made me angry a few times. A book that makes you feel something is well written. It was easy to fall in love with the good guys, and fall in hate with the bad guys. It took both to make a story like this come to life, and I think it had the perfect mix of both. I won't say how it ends, but it made me cry.

This book was so engaging and really good. It is a young adult so don't expect any hot/sexy scenes; however it is sweet and romantic. It is about teenage pregnancy and deals with the effects of being young and thinking that this couldn't happen to you. The characters in this book (Adam and Lainey) are young 18 and 15 respectively) and well they seem very mature for their age. I loved the fact that he was so supportive. In contrast, Lainey's parent were so not there and unsupportive. This book ends on a happy note, but it is part of a series. I liked it so much and I invested so much on these wonderful characters that I plan to continue reading the next books.
