Customer Reviews

"Known for its four-color maps, photos and illustrations, the [DK] Eyewitness Guides are extremely user-friendly for travelers who want their information delivered in a concise, visual way." [Chicago Tribune](#) "The best option | Color photos, maps, and diagrams bring the place to life." [The Philadelphia Inquirer](#)

The Eyewitness Travel Guides are in my opinion the best ones available. It shows with pictures and illustrations the main touristic attractions of Amsterdam. The way they divide the city in areas and dedicate a chapter for each makes it very easy to browse through. The pull-out map is also a very good addition. Some people will probably say I am old fashioned because most of this information can be found on the internet very easily, but I like the way it is organized and you never run the risk of running out of battery.

Love this book! Purchased it in April for our trip to Amsterdam and I'm so glad I did. It's small and portable yet big enough to read easily. All the information we used was accurate and easily understood. It was informative and not too wordy. It helped us out tremendously for deciding where to go outside Amsterdam as well. The maps and guides were spot on and invaluable. I will definitely try out different cities from this series!

I always buy the DK series books for cities we plan to visit. I really like how the books are arranged. The maps are excellent. The book is small enough to throw in your purse or day pack so you can take it with you and pull it out throughout your time in the city. We have never been disappointed with their recommendations - shopping, museums, restaurants, parks, etc.

Carefully planned walking tour plans with "3-D" diagrams and street maps. Arrival and orientation information important to first-time visitors are important and comprehensive parts of this guide. After nine visits to The Netherlands, I learn new info and practical facts new to me. (slow learner?). Included are many nearby towns and info about other historic and otherwise places of significance and interest to visit. This is a beautiful and tourist-friendly country to visit, with enough attractions to keep anyone busy traveling or touring busy for as long as you can stay. This guide is highly recommended for all Independent visitors considering a Western European trip. More hotel and restaurant listings would be welcome, though. Added comment to original post: Lavishly illustrated with color photos related to the printed descriptions of the attractions.

I was in Amsterdam for 8 days and really used this book! Even though there is a lot to see and do there, this guide helped me make the absolute most of it. The maps in the book are really detailed and it is just fun to look at the pictures.

DK is my go-to travel guide. Nice details and information. Street guides are handy; my friend complained that the guides are too large and too heavy with the thick, heavy-stock paper to carry around, but I think they are very much worth it!

Has all the "must see" .highlights.

Excellent photos and street maps. Clear explanations of sites. 'made it easy to navigate the city on our own on foot and via trams.
