Elementary And Intermediate Algebra

Synopsis

Algebra can be like a foreign language, but **ELEMENTARY AND INTERMEDIATE ALGEBRA, 5E**, gives you the tools and practice you need to fully understand the language of algebra and the "why" behind problem solving. Using Strategy and Why explanations in worked examples and a six-step problem solving strategy, **ELEMENTARY AND INTERMEDIATE ALGEBRA, 5E**, will guide you through an integrated learning process that will expand your reasoning abilities as it teaches you how to read, write, and think mathematically. Feel confident about your skills through additional practice in the text and Enhanced WebAssign. With **ELEMENTARY AND INTERMEDIATE ALGEBRA, 5E**, algebra will make sense because it is not just about the x...it's also about the WHY.

Book Information

Hardcover: 1280 pages

Customer Reviews

Alan Tussy has taught all levels of developmental mathematics at Citrus College in Glendora, CA. He has written nine math books. An extraordinary author dedicated to his students' success, he is relentlessly meticulous and creative--a visionary who maintains a keen focus on the greatest challenges students face in Mathematics. Alan received his Bachelor of Science degree in Mathematics from University of Redlands and his Master of Science degree in Applied Mathematics from California State University, Los Angeles. He has taught across course and curriculum areas from prealgebra to differential equations. He is currently focusing on teaching courses related to Developmental Mathematics. Professor Tussy is a member of the American Mathematical Association of Two-Year Colleges (AMATYC). R. David Gustafson is Professor Emeritus of

Mathematics at Rock Valley College in Illinois and has also taught extensively at Rockford College and Beloit College. He is coauthor of several best-selling mathematics textbooks, including Gustafson/Frisk/Hughes' COLLEGE ALGEBRA, Gustafson/Karr/Massey's BEGINNING ALGEBRA, INTERMEDIATE ALGEBRA, BEGINNING AND INTERMEDIATE ALGEBRA, BEGINNING AND INTERMEDIATE ALGEBRA: A COMBINED APPROACH, and the Tussy/Gustafson and Tussy/Gustafson/Koenig developmental mathematics series. His numerous professional honors include Rock Valley Teacher of the Year and Rockford's Outstanding Educator of the Year. He has been very active in AMATYC as a Midwest Vice-president and has been President of IMACC, AMATYC's Illinois affiliate. He earned a Master of Arts from Rockford College in Illinois, as well as a Master of Science from Northern Illinois University.

Very easy book to learn from. Very descriptive and helpful.

Only knocking off one star because the spine is detached from the cover from wear and tear. It's used so I expected some type of wear but they could have slapped some tape on it. No worries I'll send it back taped up. Good price !

perfect, thank you!

I was excited to be receiving this used teacher's edition in hopes it would help me. Math is not my favorite subject, but this book comes in handy for its examples and explanations. My math teacher gives a lot of homework, and his book had answers for every problem, but not the work done to get those answers. Overall I have been happy with it

This book teaches you starting from an entry level intermediate math level with color differentiating concepts. I love it. It's a thick, heavy book obviously mathematics is a vast subject. It has problems that you can work out too. I love this book!

The book is in great conditions.

The book is in really good condition.

This is the Teacher's Edition. Waste of money
