# Many Kinds Of Matter: A Look At Solids, Liquids, And Gases (Lightning Bolt Books)

## Synopsis

This informative title uses accessible text and concrete examples to explain the different states of matter--a key science concept in grades K-2.

## Book Information

Series: Lightning Bolt Books

Paperback: 32 pages

Publisher: Lerner Classroom (January 2011)

Language: English

ISBN-10: 0761371060

ISBN-13: 978-0761371069

Product Dimensions: 0.2 x 7.5 x 10 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #235,374 in Books (See Top 100 in Books) #113 in [Books > Children's](#)

[Books > Science, Nature & How It Works](#)

Age Range: 6 - 9 years

Grade Level: 1 - 4

## Customer Reviews

A former elementary school teacher, Jennifer Boothroyd has written many nonfiction books for children. --This text refers to the Library Binding edition.

This book was great by not only teaching the content, states of matter, but also for using non-fiction text features to better understand a text. I read this to my second grade class and they thoroughly enjoyed it. We would discuss the states of matter, then go back and count all the text features. This book was much better than the other books I have about matter because it was just the right amount of information when introducing states of matter. I will be suggesting it to my coworkers!

This is a great addition to our school library. It was just as described and arrived very quickly. Thank You for your outstanding service.

I did a lesson on the three stages of matter with my Special Education Students. This book was well

adapted to my needs and helped tremendously in the classroom conveying information to my students.
