A lot of times we go through life not realizing just how blessed we are. For some of us others can see the gifts in us long before we can, and that is why it is so important to strive for your best each and every day, never knowing where it will lead. In his book Steve Harvey's Barber . . . Says It All! celebrity barber and author James Thomas shares not just what it has been like to have his work recognized by celebrities like Steve Harvey and others, but how it all began. As with many of us, the journey to being amazing or in James' case "extra ordinary" began with his father. His father saw the potential in his son, and James was able to nurture that and what it grow. His father also set the

perfect example for James, allowing him to see what was possible by doing "extra ordinary" things in his own right. James shares these lessons in the book that is so much more than about hair. It is about living life to the best of your ability and carrying yourself as the individual you want to be. He also shares the importance of not just believing in yourself, but making sure that you are able to pass on what you have learned to others. Greatness is to be shared, and when we work together, James shares that we can not only accomplish more but be more ourselves. Inspiring and a great testament of the human spirit and what hard work, determination and faith can get you, this book is one to get.

I downloaded and finished James Thomas' book in one afternoon. It is in his words "extra ordinary." The book isn't just about hair, it is about commitment, perseverance, pride in one's work and having good business sense. It is about being motivated to be more than the best you can be and how doing "extra ordinary" things will reap rewards. This is an easy and interesting read. It was well worth the three hours of my time. There are many great lessons in this piece. In Chapter 11 James says, "The extra effort that you must put forth throughout your career does have its rewards. These rewards are byproducts of your success. You will be given opportunities and a freedom that you otherwise would not have." This is so true and James demonstrates this concept with examples and quotations throughout the book. "Steve Harvey's Barber Says It All" is about hair and yet it isn't. It's about living a life doing things in an "extra ordinary" way. Two thumbs up for an inspirational and well written book.

Thanks this book really increase my confidence Towards opening a new barber shop I recommend This book to all barber stylist
