The content is excellent!

The Information I am getting from this book is amazing. The practice test from this book is helping me go back to the chapter and review again. Great investment!

The only updated book available for the new merged test! Had great information. Good study material. But I still had things appear on the test that there no where near the study materials.

Great

I like this book includes information about plainfolk advertisements, but it lacks information on sympathetic and unsympathetic characters.

I used this book to study for the 5038 exam. I studied for 9 days straight and took everything this book had to heart. I studied really hard and did the practice test. I took the English Praxis 5038 exam on Saturday July 9 2016 and the information in the book did not allign with the material on the test. I was even worried that I was taking the wrong exam... The book's practice test was VERY different than the actual test. Although the test did cover some material that is in the book, I must warn you that the majority of it is NOT on the test. I would suggest doing the online test provided by

ETS. I did pass the test and do believe this book somewhat helped, but I spent days memorizing dates and names I didn't need to know.

Much of the book seems helpful. I will know how well it prepared me after I take my exam. I do see one glaring mistake though, which makes me wonder what else is incorrect.
