Jesus: The Explosive Story Of The 30 Lost Years And The Ancient Mystery Religions

Synopsis

Where was Jesus for the first thirty years of his life? Where and what was he taught? Who were his teachers? This fascinating volume offers startling new evidence culled from hard-to-find Vatican texts, theosophical classics, legends and hermetic symbolism to construct radical new picture of Jesus and his times. McCannon postulates that Jesus spent at least seven years in Egypt, a number of years in England, and visited both India and Tibet before beginning his public ministry in Palestine. This is a wide-ranging examination of the direct links and similarities between Jesus' teachings and the teachings of various mystery religions and sects that were popular during his lifetime, including the Essenes, Buddhists, and Druids. McCannon offers compelling evidence that places Jesus' life and mission firmly in the context of the deeper spiritual teachings that came before him.

Book Information

Paperback: 448 pages

Publisher: Hampton Roads Publishing (March 1, 2010)

Language: English

ISBN-10: 1571746072

ISBN-13: 978-1571746078

Customer Reviews

Tricia McCannon is a writer, teacher, and speaker about various facets of the world's mystery religions. She has been a guest on more than 150 national TV and radio shows, including the popular series *Sightings*, *Unsolved Mysteries*, and *Strange Universe*. She lives in Georgia.

"We all know the beginning of the tale when the magical child is born, and we all know its ending... but a vast portion of the middle chapters of the epic are missing... Where did he live before the age

of twelve, and afterwards in the decades before his ministry began? Did he have teachers who know of his deeper mission? How did they help to prepare him for it? This book will answer all these questions."

Tricia McCannon not only writes a scholarly book of the birth, life and death of Jesus, she writes in a clear and easy to understand way that make this book as suspenseful as any work of fiction. She brings Jesus the man to life. She shows that Jesus was human, that he worked at his knowledge visiting Egypt, England, India and Tibet, learning from the greatest minds of his time. That he didn't just come into this world knowing all things, though he was one of the four great Kumaras, the solar lords, the eternally young sons of God who 'realized the truth of self', he did his homework. McCannon's view of Jesus, heavily researched, is a thousand times more interesting than the whitewashed version of Jesus that portrays him as the son of God who was born of a virgin, knew everything, could do no wrong, and was killed for our sins. Instead we see a human being who studied and earned his powers showing us the way to the promised land. Filled with illustrations, footnotes from works found in the Vatican that not many people get to see, oral traditions, and so many other books that I don't see how it was humanly possible to read, McCannon not only offers us an incredible look at Jesus, she backs it up. Simply an amazing work. *When I Dream*

"Jesus: The Explosive....." is clearly written, taking apart dogma and distinctly pointing to the essential meaning of what Jesus was teaching us before political corruption misguided the masses from God within each of us, no matter our beliefs, to a centrist pyramid of power of interpretation of God by man and through man, then to the masses. I highly recommend this book.

I could not put the book down. Ms McCannon writes clearly and keeps you interested. I particularly liked the heavy footnoting which made the book more meaningful. If you are interested in seeing Jesus as the man he was and why he was so learned in the ancient mystery religions, this is the book. If you become hooked with the topic there are many citations to keep you searching. Everywhere I look now I see the symbolism which is the foundation for much of Christianity today, including the "beehive" hat the Pope wears to the "fish" symbol that appears so ubiquitously on the back of automobiles and the origin of the "cross", which was already an important ancient religious symbol before Christ. Rather than travel to the Holy Land, I suggest go to the Isle of Avalon in Glastonbury England where Jesus lived and his followers, lead by Joseph of Aramethia, went to start

the first Christian church. You will find out that Jesus also traveled extensively in India and was well grounded in the ancient teachings of the Egyptians, from which he may have learned about resurrection. The raising of the Eucharist during the Catholic mass is a symbol for the Sun, based on the Egyptian god of the Sun, Ra, whose "eye" is the derivation of the "fish" symbol. All this and more is explored by this wonderful book that places our current Western religious practice and the life of Jesus in in a modern perspective.

Quite interesting and thought provoking.

WITH BUSY SCHEDULE HAVE ONLY RECENTLY MANAGED TO READ THE FIRST 60 PAGES-FULL WITH CORROBORATED REFERENCES FROM VARIOUS SACRED TEXTS WITH ALTERNATE EXPLANATIONS OF MYSTERIES AND SYMBOLISM --- SOME IN DEPTH RESEARCH FOR THE COMPARATIVE RELIGIONS STUDENT ,THEOSOPHIST.....

Tricia takes you on a journey of Jesus' life - from birth through death and Resurrection, but most importantly she speaks of Jesus' journeys to Britain, India, Tibet, Persia and Egypt - what he learned and what he taught. You get the clear message that the wisdom of the ancients - held in the ancient mystery schools - that have been around for at least 5000 years, is embraced by Jesus, and played out on the world stage with his life. If you have ever wanted to know the symbolism, or hermetic language in the art of all cultures - read this book - filled with over 100 illustrations. We have never been alone - and the teachings are now surfacing for all to know.

Once of the best books I've ever read on the mysteries of where Jesus was all those years that are conveniently left out of the "Constantine Bible". It answers many questions and feels like truth.

Awesome truths shared by one who learned of the Mysteries preserved by countless Avatars through the realm of time/space, the incarnate state of consciousness.
