Customer Reviews

I purchased this as a gift for my fourth-grade nephew, who was taking Missouri history in school. When I received it, I was so impressed -- beautiful photographs & illustrations, fun stories -- that I ordered another for a friend who recently moved to Missouri from California. The book was a big hit! My nephew's older brother informed me that he had checked this out of his school library several times and thought it was one of the coolest books ever. This book is ideal for a kid of ten or eleven, but it is written at a level that would appeal to adults, as well. I grew up in Missouri and didn't know half of the stuff in this book. Not all of the anecdotes are particularly sophisticated and it might be a bit fluffy for a real Missouri history buff, but there are plenty of great anecdotes, colorful photographs and illustrations. It contains the kind of stories that will really stick with kids over the years -- ghosts, dogs, etc. Along with the content, the presentation is also nice -- the book is a bit oversized, with substantial paper and plenty of color and information, sure to stand up to years of use. Overall, well

worth the money!

I purchased this book for my dad for Christmas. He's so hard to shop for and I came across this book and thought it would be perfect. He ended up loving the book and now wants to visit some of the places he read about. Since he liked it so much I decided to take a look at it myself. Since I'm originally from Missouri I was really surprised at all the interesting places and facts that it talked about that I had never heard of before. I was really excited to see a story about my hometown in there also. It also gives you some background information and pictures instead of just listing the weird places. I would definitely recommend this product to anyone who is from Missouri or just interested in the weird and strange.

interesting fun

Great book! Gave it to my nephews who live in MO, age 7 and 9, and they love it so much, they want to visit half the places in there.

A friend told me about this book so I bought it. How interesting! I just loved it! Makes a great gift or coffee table book. I was born and raised in Missouri and still live here and I never knew about most of the things in this book. If you are a true Missourian you will love this book.

It's my second "weird" book, Californis being the first. I wish he had one for Kansas and evety other state. It's such an informative reaf. I can't wait for my road trips.

This book gives me all sorts places to visit to take photographs so I am busy going here and there. Often when people see my photos they are surprised and wonder how I knew about the subject. Only downer was the photo of Molly Crenshaw, it is a beautiful illustration not a photo; the statue doesn't exist.

Fun to read!
