Seinfeldia: How A Show About Nothing Changed Everything
Synopsis

The New York Times bestseller about two guys who went out for coffee and dreamed up Seinfeld—a wildly entertaining must-read not only for Seinfeld fans but for anyone who wants a better understanding of how television series are made (Booklist, starred review). Comedians Larry David and Jerry Seinfeld never thought anyone would watch their sitcom about a New York comedian sitting around talking to his friends. But against all odds, viewers did watch first a few and then many, until nine years later nearly forty million Americans were tuning in weekly. Fussy Jerry, neurotic George, eccentric Kramer, and imperious Elaine people embraced them with love. Seinfeldia, Jennifer Keishin Armstrong’s intimate history is full of gossipy details, show trivia, and insights into how famous episodes came to be. Armstrong celebrates the creators and fans of this American television phenomenon, bringing readers into the writers’ room and into a world of devotees for whom it never stopped being relevant. Seinfeld created a strange new reality, one where years after the show had ended the Soup Nazi still spends his days saying “No soup for you!” Joe Davola gets questioned every day about his sanity, and Kenny Kramer makes his living giving tours of New York sites from the show. Seinfeldia is an outrageous cultural history. Dwight Garner of The New York Times Book Review wrote: “Armstrong has an eye for detail. Perhaps the highest praise I can give Seinfeldia is that it made me want to buy a loaf of marbled rye and start watching again, from the beginning.”

Book Information

Paperback: 336 pages
Publisher: Simon & Schuster; Reprint edition (June 6, 2017)

Customer Reviews
"Her book, as if she were a marine biologist, is a deep dive...Perhaps the highest praise I can give Seinfeldia is that it made me want to buy a loaf of marbled rye and start watching again, from the beginning." — Dwight Garner, The New York Times

"Even for those of us who imagine ourselves experts, Armstrong scatters delicious details throughout her book, like so many Jujyfruits we can’t resist...In describing the making and writing of this singular show, Armstrong is queen of the castle. Her stories about Seinfeld are real and they are spectacular...WASHINGTON POST

"Lively and illuminating. A wildly entertaining must-read not only for Seinfeld fans but for anyone who wants a better of understanding of how television series are made...Booklist, starred review

"The heart of Armstrong's book and its most engaging quality is how it all came to be: the Seinfeld rules of the road that seemed to be without rules; the actors who left their indelible mark (Bryan Cranston as dentist Tim Whatley, Teri Hatcher as one of Jerry's "spectacular" girlfriends) and the parade of moments about nothing that really turned out to be something."

Brings back memories. Seinfeld brought great fun to the whole country and this book kindles those memories. The origin of Moops, spongeworthy, bubble boy, the balm and hundreds of others was detailed.

After I read the sample pages, I was hooked! This book has such a plethora of Seinfeld minutiae I had no idea existed! I am now searching for a minor league baseball game with a Seinfeld night! Maybe I'll even host a Seinfeld-themed party!!!

I learned so much about Seinfeld from this book. Very fascinating!!!

Item was a gift. Enjoyed by the recipient a Seinfeld fan.

Not sure why this was a best seller but it was enjoyable.

If your a Seinfeld fan you must read this book.

I bought this for a friend. He is a true Seinfeld fan and he loved it.

The is too much for what you get. There is nothing insightful in the book, but it does go into some details on the various writers. Other booksteel a lot more from the general to the specific and cost a lot less.
